Summary

Aspiring software development engineer with hands-on experience designing, developing, testing, and deploying REST APIs and AI-driven applications using Java, Python, and JavaScript. Experience building AI agents and LLM-driven workflows (Ollama, Gemini API), working across front-end, back-end, and cloud infrastructure (AWS), with a strong foundation in DSA, OOP, databases/SQL, system design, and Agile methodologies, and experience translating stakeholder requirements into technical solutions.

Technical Skills

Languages: Java, Python, SQL, JavaScript, TypeScript

AI/LLM: AI Agent Workflows, GenAI, LLM Integration (Ollama, Gemini API), Prompt Engineering

Frontend: React.js, HTML5, CSS3, Tailwind CSS, MVC Architecture

Backend & Databases: Node.js, Express.js, FastAPI, REST APIs, Microservices, MySQL, MongoDB, Firebase

Cloud & DevOps: AWS (S3, EC2, CloudWatch), Git, GitHub, CI/CD

Concepts: DSA, OOP, System Design, Agile, Software Testing, Code Reviews

Education

VIT Bhopal University

Bachelor of Technology in Computer Science and Engineering

Bhopal, Madhya Pradesh

Aug. 2023 – May 2027

St. Mary's Higher Secondary School

Intermediate and High School

Ahmedabad, Gujarat

Jun. 2020 – May 2023

Internship Experience

Porbandar District Co-Operative Milk Producers' Union Ltd (PDCMPUL)

Apr. – Jun. 2025

Full Stack Developer Intern (MERN Stack)

Hybrid

- Designed, developed, tested, and deployed 3+ full-stack modules (React.js, Node.js, Express.js, MongoDB), building scalable, reusable REST APIs.
- Collaborated with a 5-member team and stakeholders in Agile sprints – gathering requirements, debugging, testing, and shipping business-critical features, cutting manual reporting effort by 20%.
- Followed version-controlled, Git-based development workflows and coding standards via a private server, maintaining 100% confidentiality of production data at scale.

Projects

AI-Powered Technical Interviewer | [Live Demo](#)

Jul. 2026

React.js, Node.js, Express.js, MongoDB, FastAPI, Ollama

- Architected and deployed a 3-service, microservice-style platform handling complex business logic across React.js, Node.js/FastAPI, and Whisper speech-to-text.
- Integrated a local DeepSeek-R1 LLM via Ollama as an AI agent to auto-evaluate coding responses, removing manual grading effort for 100+ mock tests.
- Built and tested real-time REST APIs with Socket.io, plus a Monaco code editor and analytics dashboard, following software testing best practices.

Nourishfy – AI Nutrition & Smart Groceries | [Live Demo](#)

Sept. 2025

React.js, Tailwind CSS, Firebase, Gemini API

- Built an AI nutrition agent generating personalized weekly plans via the Gemini 2.5-Flash API, applying prompt engineering to express complex application logic concisely.
- Integrated Firebase Auth and Firestore REST APIs to manage profiles and grocery history for 100+ test users with zero downtime.
- Cached API responses to improve performance and built a mobile-first, self-service UI with dark/light mode.

Achievements & Certifications

Coursera: Google IT Professional Certificate; IBM AI Engineering Professional Certificate

ETHNUS: MERN Full Stack Certification

NPTEL: Introduction to Machine Learning; Marketing Analytics

LeetCode & GeeksforGeeks: Completed 100-day and 50-day coding challenges

Extracurricular

Placement Coordinator | *PAT Team, VIT Bhopal University*

Oct. 2024 – Present

- Selected as 1 of 16 coordinators to facilitate the placement process for 450+ final-year students, coordinating Blue Yonder and TCS placement drives end-to-end.

Lead | *Event Management, WiCyS Club*

Nov. 2024 – Present

- Organized 4+ competitions, including Cyber Carnival, Frequency Fusion, Mission Impossible, and GTA, engaging 100+ participants.
